ROUNDTABLE DISCUSSIONS

The regional housing shortage is impeding employer and economic growth, so APEX is working to impact housing development in the Twin Ports in partnership with Cirrus Aircraft and the Duluth Airport Authority. We're excited to be making headway by engaging in meaningful conversations with cross-industrial and community stakeholders. Ensuring housing availability is a critical element of supporting business growth in the APEX region. The APEX team is looking forward to continuing this partnership and important work in 2023.
